

CHEMICAL

ALERT

Evacuation order

You may be asked to evacuate. If you are, please leave the area immediately.

Pack only the bare essentials.

Go to a friend or relative's home that is not in the vicinity of the chemical event. You may have to go to a public shelter.

Follow the evacuation route authorities recommend. Don't take short cuts on the way to the shelter.

Do not call 911 unless it is an emergency.

If you can, take the following items with you:

- **Medical supplies:** prescription medications and dentures;
- **Disaster supplies:** flashlight, batteries, radio, first aid kit and bottled water;
- **Clothing and bedding:** a change of clothes and a sleeping bag or bedroll and pillow for each household member; and
- **Keys:** car keys and keys to the place you may be going (friend's or relative's home).

Please listen to the TV or radio stations for more information.
